

CageMaster Plus™

Dual Purpose Cage Dryer and Forced Air Dryer

It's a cage dryer. Cage Master Plus is the safest way to "cage dry" your dogs quickly and thoroughly. The powerful 4.0 peak horsepower motor generates a high volume of warm air (see chart) But even more important the six foot drying hose is extra large in diameter, a full 2 1/2" so it can carry a gale force air into cages. And because there is no heating element (often found on other cage dryers), CageMaster Plus won't overheat or dehydrate your dog. There's no hot air to injure a dog's scalp or coat. And for added safety our deluxe model features a 15 minute timer. When the time is up it'll turn itself off. CageMaster Plus is constructed of durable steel, so it can take all the punishment you dish out. Just hook it onto the cage and it does all the work. **BONUS:** It's a forced air dryer too. CageMaster Plus easily converts into a forced air dryer, for all your drying needs. Its powerful motor and 6ft x 1 1/4" diameter hose delivers a high velocity air stream that blows water quickly off the thickest wettest coats cutting down on grooming time by a much as two thirds. "When Metro Air Force came out with its new CageMaster Plus, we compared it to everything in the market. Cage Master Plus is the best cage dryer value around, I know I've looked". -Loretta Marchese, two time winner, International groomer of the Year

CageMaster™

SPECS	CM-3DLX	CM-3
